

5kw Low Frequency Inverter

This is a 48VDC 220VAC 5KW Low Frequency Inverter, which is with Isolated output transformer to provide users with cleaner energy. So it can work with all loads including motors, refrigerators, air conditioners, etc.

We assure you of our high quality services at all time. 5kw low frequency inverteris widely used in all kinds of high-grade and a variety of personalized decoration, Self-direction control of life, advocate to enjoy work, enjoy life, advocate annotation quality, more cutting-edge, more publicity, more exceptions, more quality.

1.Product Introduction

This is a 48VDC 220VAC 5KW Low Frequency Inverter, which is with Isolated output transformer to provide users with cleaner energy. So it can work for all loads including motors, refrigerators, air conditioners, etc. This series inverter has complete protection function, input over/low voltage, overload, short circuit, low battery voltage, over temperature etc.

2. Product Parameter (Specification)

Model	WS1K	WS1.5K	WS2K	WS3K	WS4K	WS5K	WS6K	WS7K		
Rated power	1KW	1.5KW	2KW	3KW	4KW	5KW	6KW	7KW		
Surge power	3KW	4.5KW	6KW	9KW	12KW	15KW	18KW	21KW		
AC Input & Output										
Voltage	220VAC									
Selectable Voltage Range	165-275VAC (220VAC)									
Frequency Range	50Hz/60Hz automatic recognition									
AC Voltage Regulation	220vac±3% (DC Batt. mode)									
Transfer Time	≤4ms									
Wave Form	Pure Sine Wave									
Transformer type	Toroidal UI									
Transfer efficiency	≥90% (full load)									

Foshan Sunrise Energy Technology Co., Ltd.

Address:Guangfo Intelligent Park, Dali St. Nanhai District, Foshan City, Guangdong Province, China Tel:+86-13516583501 E-mail:william@srsolarpower.com

Battery											
Battery Voltage	12V/24V		12V/24	V/48V	24V/48V	48V					
Туре	Gel/SLA/AGM/Water/Lithium(lifepo4) Battery										
DC Charge Voltage	12~16VDC (12V)/20~32VDC (24V)/40~64VDC (48V)										
Overcharge Protection	Battery voltage ≥ 16VDC (12V) ≥ 32VDC (24V) ≥ 64VDC (48V)										
Ac Charger(optional)	•										
AC Charge Current	1A~35A(adjustable)										
Working mode	•										
01 mode	AC mains priority mode(ups)										
02 mode	ECO mode (ups)										
03 mode	DC battery priority mode(solar inverter)										
Communication Port(optiona	1)

3. Product Feature and Application

Main Features:

5KW Low Frequency Inverter;DC voltage: 12V/24V/36V/48V;

•AC output voltage: 110V/120V/220V/230V/240V;

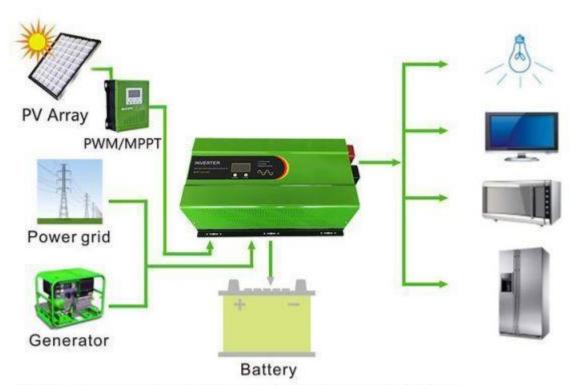

Frequency: 50/60Hz auto;Pure sine wave & AVR output;

- •Selectable charging current based on applications;
- Configurable AC/Solar input priority via LCD setting;
- •Compatible to mains voltage or generator power;
- •Can with communication RS232/USB/SNMP/Wifi;
- •Smart battery charger design to optimize battery performance;
- •Stable performance, safe and reliable, long service life.

Application:

It is a 220v 5kw solar inverter for home solar system

*Tips: Power grid/generator input are optional functions.

4.Product Details

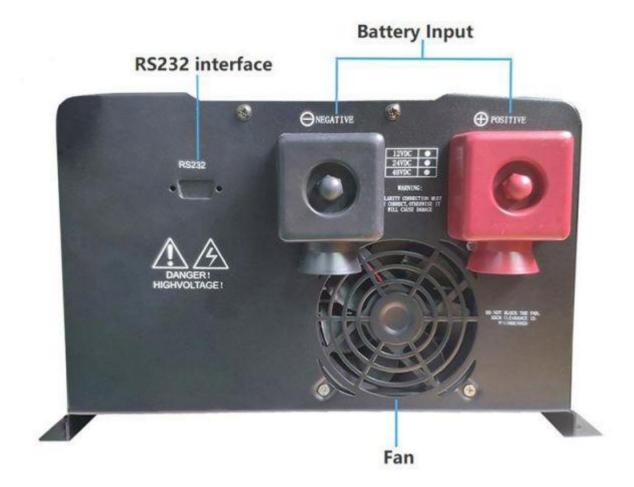

It is 5kw low frequency inverter, can connect AC grid as bypass backup.

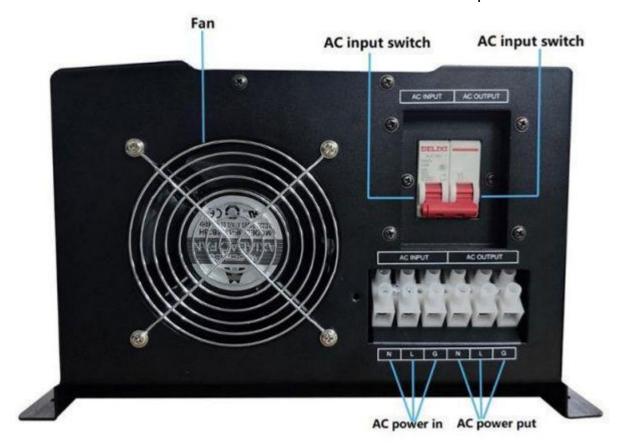

5.Product Qualification

Rich production experience & strict quality control. Before leaving the factory, each 5000 watt Low Frequency Inverter has undergone strict inspections.

Q: What's the delivery time of this 5kw solar inverter?

A: some in stock; 10 to 25 days for bulk order.

Q: Is it a 5000w low frequency inverter?

A: yes, low frequency inverter with toroidal transformer

Q: What is the battery voltage of this 5000 watts solar inverters?

A: It is off grid solar inverter 48v 5000w,

Normally single phase 220V 230V 240V 50/60Hz

Q: What is the warranty of this 5000w low frequency solar inverter?

A: One year warranty.

Q: How to solve the technical problem of 5kw inverter?

A: 24 hours after-service consultancy just for you and to make your problem to solve easily.

Q: What's the payment term of this inverter 5kw?

A: T/T, Western Union, Paypal, L/C.
